The Road is alive. It’s emotional. It’s filled with passion, sweat, and tears. It breathes and it flows. Its pulse beats into every pedal stroke as the miles tick away under skinny tires. It tells stories of riders that passed before you, of their personal victories and of their suffering. The road doesn’t know what an acronym is. It doesn’t care about CAD design. The road is the true proving ground, and it’s waiting for you.

Craftsmen choose their materials very wisely. They not only choose the best material for the job, but a material they connect with. Materials that resonate the true art of their craft, and express their passion in physical form. So is it any wonder that so many custom bicycle frame builders exclusively use steel to create? It is in our heritage to create a great bicycle, it is with the purest affection that we craft the Raleigh All Steel Bicycle.

Goals and personal achievement are the driving force behind so many of us. To have the desire to challenge ourselves, to see something through and to accomplish a task once it’s been set in motion. Whether it has to be ready for the Charity ride this summer, maybe get back to a pants size last seen in college, or to shave an extra minute off the commute time. The right tools make any job easier. We’ve created the tools. You just need to provide the motivation.

Blending is a very fine art. It’s not as simple as throwing ingredients into a blender and pushing “puree”. There is a fine balance of adding the correct amount of components and attributes to achieve the desired result. We’ve finely tuned our already incredible recipe to create some of the finest Hybrids for whatever you dish at them.

We took the rider into consideration before all else when designing these bicycles. In doing so, we created bicycles that can maneuver and climb like a hybrid and is as comfortable as a cruiser. The key to this is the Easy Angle Seating Enhancement geometry and the Raleigh exclusive custom made handlebar. By relaxing the seat angle and changing the rider’s hand position, we made a bike that is more comfortable to ride and easily outperforms any Flatfoot bike available.

Ease yourself onto a new Calispel or Route and feel the relief.

All E.A.S.E models are Shimano equipped.

Just what is it about single track trails? Is it something primal? Is it the need to discover and to seek out adventure? Is it maybe an itch to be away from everything civilized and concrete? Is it the feeling that comes after finding the flow on your favorite trail? Is it the joy that comes from exploring with a gritty smile on a weary face?

We can't quite put our finger on it either...but we get it. And we love it.

Comfort

Taking life a little less serious some days isn’t as easy as it sounds. The ability to kick the feet up, sit back and relax is becoming an art form that requires patience and practice. Fortunately, these bikes come with these features already installed. All you have to do is take the time and the bike will do the rest.

We took the rider into consideration before all else when designing these bicycles. In doing so, we created bicycles that can maneuver and climb like a hybrid and is as comfortable as a cruiser. The key to this is the Easy Angle Seating Enhancement geometry and the Raleigh exclusive custom made handlebar. By relaxing the seat angle and changing the rider’s hand position, we made a bike that is more comfortable to ride and easily outperforms any Flatfoot bike available.

Ease yourself onto a new Circa and feel the relief.

All E.A.S.E models are Shimano equipped.
Internal Geared Hubs.
Relax... it's all inside

Innovative technology for worry-free cycling, precise shifting, reliable braking and minimum maintenance.
- Integrated shifting support for light shifting
- Hub with even better sealing, the mechanism is completely protected against rain and dirt.
- 3 speed or 8 speed:
  In any situation, in the right gear.

Cruiser  The classics are called classic for a reason. They have a universal look and appeal that evokes fond memories and entices the senses. The wind against skin, fresh air filling lungs. Sun warmly touching skin. The gentle curves, the broad saddle, swept handle bar of a cruiser just begs for a smile and a little more time to ride.

**Raleigh America, Inc., Bicycle Limited Warranty**

It is the owner’s responsibility to thoroughly read and understand the owner’s manual and regularly examine the product to determine the need for professional, authorized service or replacement. Please consult an authorized Raleigh America, Inc., bicycle dealership with any questions on use and maintenance. Regardless of the length of the warranty, Raleigh America, Inc., does not infer that the bicycle will last forever or cannot be broken. All Raleigh framesets and bicycles have a finite, limited useful product life cycle. The length of this useful life cycle will vary by environment, riding conditions, frame material and construction, riding style, maintenance, and the amount as well as type of use the bicycle or frame is subjected to. A worn out bicycle does not indicate it is warrantable, rather that the bicycle has outlived (exceeded) its useful product cycle.

Raleigh America, Inc., warrants this new Raleigh America, Inc., bicycle frame against defects in material and workmanship, subject to the following limitations, terms, and conditions:

<table>
<thead>
<tr>
<th>Item</th>
<th>Warranty Term Length</th>
</tr>
</thead>
<tbody>
<tr>
<td>Steel bicycle frames with wheel size less than 20”</td>
<td>Lifetime, for as long as the original retail purchaser owns the bicycle*</td>

</table>

1. This warranty only applies to the original retail purchaser and is not transferable.
2. Specific model exceptions to this warranty are noted with the bicycle documentation.
3. Raleigh America, Inc.’s sole obligation during the acceptable duration of this warranty is, AT RALEIGH AMERICA, INC.’S OPTION, to repair or replace the product with a current item that is equivalent in construction, design, or value.
4. Raleigh America, Inc.’s liability under this limited warranty shall never exceed the amount of the original purchase.

To obtain service under this warranty, you must:
1. Return your fully assembled Raleigh America, Inc., bicycle to an authorized Raleigh America, Inc., bicycle dealer within the United States of America. A bicycle that has had the components removed cannot be evaluated or warranted.
2. Provide proof of purchase, including but not limited to the retail bill of sale, your credit or debit card receipt, or other satisfactory proof of the date of purchase.
3. The proof of purchase must indicate the bicycle was sold fully assembled and adjusted by an authorized Raleigh America, Inc., dealer within the United States of America. Sales where the bicycle was delivered in a carton to the end user (e.g., mail order or Internet sales) void the warranty.

This warranty does not apply to damage or failure due to:
1. Accidents, alteration, abuse, neglect.
2. Material fatigue, normal wear and tear.
3. Improper assembly, maintenance, or installation of parts or accessories not originally intended to be compatible with the bicycle as sold, including but not limited to power assist accessories, forks, brakes, or tires different from original specification.

This warranty also excludes:
1. Commercial use (such as rental or security fleets), racing or competition, stunting, jumping, trick riding, ramp riding, aggressive riding, riding with excessive loads, lack of technical skill, competence, or experience of the user.
2. Bicycle frames, which have been repaired (e.g. welded or bonded), repainted, or had the original decals removed.
3. Frames, forks, wheels, axles, handlebars, and stems, which are bent from just riding along, can be a sign of misuse or abuse and are not covered under this warranty.
4. Personal transportation costs or product freight costs to or from an authorized Raleigh America, Inc., bicycle dealer.
5. Any additional costs associated with the incompatibility of existing parts and the replacement frame or fork. These costs are the responsibility of the consumer.

Warranty replacement frames must be fully assembled by an authorized dealer to maintain the warranty coverage. The warranty for the replacement frame shall be the warranty offered for the equivalent bicycle’s frame of that model year. If not assembled by the dealer, replacement frames are considered aftermarket frames. Aftermarket frames are only warranted for one year from the date of purchase for the original purchaser. This one-year warranty excludes any issues that can be traced to assembly or component incompatibility.

This warranty is expressly in lieu of all other warranties, and any implied warranties of merchantability or fitness for a particular purpose created hereby, are limited to the same duration as the express warranty herein. Raleigh America, Inc., shall not be liable for any incidental or consequential damages. Some states do not allow the exclusion or limitations of implied warranties, incidental or consequential, so the above limitations and exclusions may not apply to you. Retailers and wholesale outlets for Raleigh America, Inc., products are not authorized to modify this warranty in any way. This warranty gives the original owner specific legal rights. Other additional rights may vary from state to state.

All Raleigh bicycles meet or exceed CPSC standards. Complete equipment is included with each Raleigh bicycle but not necessarily shown in photographs, e.g. reflectors. All Raleigh bicycles are covered under warranty. See your authorized Raleigh dealer for complete details. Raleigh specifications are subject to change without prior notice. Raleigh is a registered trademark of the Raleigh Cycle Limited. Raleigh bicycles are distributed by Raleigh America, Inc.

**WARNING:** All riders depicted in this catalog are professionals. Do not attempt to duplicate any actions that are beyond your abilities. **ALWAYS WEAR A HELMET!**
